

INTERNSHIP TRAINING PROGRAM REPORT

Intern ID: ZST/2026/DRM/KOP-0023

Intern Name: Jyoti Dinkar Kamble

Department / Position: Data Analyst Intern

Task Name / Project Name: Day 7 - Mini Project - Retail SQL Analysis

Task Description

- ◆ **Data Aggregation & Analysis:** I systematically gathered and analyzed retail transactional data from three main tables: Orders, Customers, and Products to identify purchasing behavior and revenue drivers
- ◆ **Table Joins & Logic Building:** I implemented INNER JOIN logic to connect multi-table data. Using a CASE Statement, I evaluated order value to tag transactions as either 'High Value' (>= 10,000) or 'Regular'. I also derived individual product unit prices by writing custom division queries (Sales / Quantity).
- ◆ **KPI Metrics Calculation:** I extracted essential high-level business indicators such as Total Sales, Total Orders, Average Order Value, and Highest Order Value by leveraging standard SQL aggregate functions (SUM, COUNT, AVG, MAX).
- ◆ **Performance Grouping:** Using GROUP BY and ORDER BY clauses, I structured detailed sales breakdowns across different sales regions and product categories to spot top market drivers .
- ◆ **Trend Analysis & Window Functions:** I evaluated monthly performance using DATE_FORMAT(). To identify top products, I applied the RANK() Window Function to generate a dynamic ranking based on overall generated revenue .

Query 1: Order Details with CASE Statement and Unit Price

SELECT

o.OrderID,
o.OrderDate,
c.CustomerName,
c.Region,
p.ProductName,

```
p.Category,
o.Quantity,
o.Sales,
CASE
    WHEN o.Sales >= 10000 THEN 'High Value'
    ELSE 'Regular'
END AS OrderStatus,
o.Sales / o.Quantity AS Unit_Selling_Price
FROM Orders o
INNER JOIN Customers c ON o.CustomerID = c.CustomerID
INNER JOIN Products p ON o.ProductID = p.ProductID; SELECT
```

Results

1005	2026-08-08	Amit Patil	West	Laptop	Electronics	1	67500.0	High Value	67500.0
1006	2026-08-09	Sneha Iyer	South	Headphones	Accessories	2	5000.0	Regular	2500.0
1007	2026-08-10	Vikram Singh	North	Mouse	Accessories	4	3600.0	Regular	900.0
1008	2026-08-11	Priya Deshmukh	West	Webcam	Electronics	1	4500.0	Regular	4500.0
1009	2026-08-12	Rohan Joshi	South	Keyboard	Accessories	2	4000.0	Regular	2000.0
1010	2026-08-13	Rahul Mehta	West	USB Cable	Accessories	10	3000.0	Regular	300.0

Query 2: Overall Sales & Order Metrics (Key KPIs)

```
SELECT
SUM(Sales) AS Total_Sales,
```

```

COUNT(OrderID) AS Total_Orders,

ROUND(AVG(Sales), 2) AS Average_Order_Value,

MAX(Sales) AS Highest_Order_Value

```

```
FROM Orders;
```

Query 2: [Accessories Sales](#)

Total_Sales	Total_Orders	Average_Order_Value	Highest_Order_Value
233100.0	10	23310.0	120000.0

Query 3: Total Sales by Region and Category

```
SELECT
```

```

    c.Region,

    p.Category,

    SUM(o.Sales) AS Total_Sales

```

```
FROM Orders o
```

```
JOIN Customers c ON o.CustomerID = c.CustomerID
```

```
JOIN Products p ON o.ProductID = p.ProductID
```

```
GROUP BY c.Region, p.Category
```

```
ORDER BY Total_Sales DESC;
```

Results

Region	Category	Total_Sales
West	Electronics	207000.0
South	Accessories	13500.0
West	Accessories	9000.0
North	Accessories	3600.0

Query 4: Monthly Sales Performance

```

SELECT

    DATE_FORMAT(OrderDate, '%Y-%m') AS Month,

```

```

SUM(Sales) AS Monthly_Sales

FROM Orders

GROUP BY DATE_FORMAT(OrderDate, '%Y-%m');

```

Month	Monthly_Sales
2026-08	233100.0

Query 5: Product Ranking using Window Function

```

SELECT

    p.ProductName,

    SUM(o.Sales) AS Total_Sales,

    RANK() OVER (ORDER BY SUM(o.Sales) DESC) AS Product_Rank

FROM Orders o

JOIN Products p ON o.ProductID = p.ProductID

GROUP BY p.ProductName;

```

Results

ProductName	Total_Sales	Product_Rank
Laptop	187500.0	1
Monitor	15000.0	2
Keyboard	10000.0	3
Mouse	8100.0	4
Headphones	5000.0	5

Results

Webcam	4500.0	6
USB Cable	3000.0	7

Query 6: Product-wise Total Sales Summary

```

SELECT

```

```
p.ProductName,  
SUM(o.Sales) AS Total_Sales  
FROM Orders o  
JOIN Products p ON o.ProductID = p.ProductID  
GROUP BY p.ProductName  
ORDER BY Total_Sales DESC;
```

Results

ProductName	Total_Sales
Laptop	187500.0
Monitor	15000.0
Keyboard	10000.0
Mouse	8100.0
Headphones	5000.0

Assigned Date: 31/08/2026

Due Date: 05/09/2026

Status: Completed
